

CLEAR CHOICE WATER BENCH TOP REVERSE OSMOSIS SYSTEM

- 💧 All Cartridges with this system are made in USA
- 💧 All fittings and tubing supplied with this system are John Guest made in the UK
- 💧 Genuine Dow Filmtec Membrane made in USA
- 💧 10 Year Warranty
- 💧 Hand built and tested in Australia by qualified plumbers

Operating Instructions

Connect White Tube to faucet using the diverter valve supplied.
Blue Tube is pure water, as unit produces water slowly the water can be collected in a suitable container.

The Black Tube is the waste water this needs to go to drain.

N.B. Unit must be connected to cold water only, failure to meet this Requirement will result in membrane damage and void of warranty

In the case of either a male or female threaded spout, please follow these steps to connect the system to your kitchen tap:

- 1 Remove Aerator **A**
- 2 Connect Diverter Valve **B**

Simple Self Installation

Diagram 2 - Countertop Set Up

- A** **Diverter** connects the kitchen faucet to the white tube.
- B** 1/4" **white tube** connects the diverter to the filter system.
- C** 1/4" **blue tube** feeds pure water to the storage container.
- D** 1/4" **black tube** feeds waste water to the drain.

For further information and assistance on the installation and maintenance of the RO4000 system, please contact
1300 001 752

- Find a convenient location on your bench top to place the filtration system in reach of your chosen faucet.
- Remove/unscrew the existing aerator off your existing faucet.
- Ensure you have assembled the correct fittings within the diverter (depending on the male/female thread of your kitchen faucet, **please refer to Diagram 3**). Simply connect/screw on the diverter valve to the faucet.
