5 Stage Reverse Osmosis Water Filter CALL US TODAY 1300 001 752
30 DAY UNCONDITIONAL MONEY BACK GUARANTEE plus LIFETIME WARRANTY*

pH BALANCED Calcite Cartridge ensures that the normally acidic RO water is pH neutral

LOW WASTE Low waste to pure water ratio can be adjusted on site to provide maximum water savings

WATER MARK AS: 3497 Built tough to last QMP housings made in USA

QUALITY ASSURED Membrane is certified NSF 58

ABSOLUTE PURITY Guaranteed to remove a wide range of contaminants providing you and your family pure water as close as your tap!

- 💧 **Stage 1** Sediment Filter 10 micron protects the second stage carbon filter from blocking prematurely
- 💧 **Stage 2** 5 Micron Carbon Filtration protects the membrane from chlorine damage
- 💧 **Stage 3** Ultra Fine TFC Membrane produces over 370 litres per day of high purity water 0.0005 micron
- 💧 **Stage 4** Calcite Filter naturally balances the pH and adds beneficial minerals
- 💧 **Stage 5** Carbon Filtration provides superb tasting drinking water

Powerful 5 Stage Filtration

5 STAGE FILTRATION

STAGE 1

SEDIMENT FILTER 10 Micron

Particular Removal Dust, Rust and Sediment

STAGE 2

CARBON BLOCK FILTER 5 MICRON

Chlorine Removal - Membrane Protection

STAGE 3

NSF 58 Membrane - 370 Litres per day

Microparticles removed - 0.0005 microns

STAGE 4

Australian Calcite Filter

Balances pH adds Beneficial Minerals

STAGE 5

Carbon Polishing Filter

Coconut Carbon - Superb Tasting Water

With our twin under sink water filters and reverse osmosis systems, all you can see is the designer tap. The perfect addition to any kitchen, affordable and stylish.

SOME REASONS TO USE A WATER FILTER

Once you have experienced pure water on tap you will wonder how you ever lived without it.

REMOVE HARMFUL CHEMICALS

President Obama's Cancer Council is a three-person body made up of distinguished scientists or physicians. It reports to President Obama on the development and execution of the National Cancer Program. The panel's report entitled "Reducing Environmental Cancer Risks: What can we do now states: "filtering home tap or well water can decrease exposure to numerous known or suspected carcinogens".

YOUR BODY NEEDS WATER

Drinking more water can lead to weight loss and reduce wrinkles

There is no real hard and fast rule as to how much water someone should drink however if you are tired, hungry or suffering from headaches it may be due to not drinking enough water.

REDUCE PLASTIC WASTE

Whether you believe in Global Warming or not, it is a fact that plastic waste is now a major concern in Australia. Plastic bottles generate an enormous amount of waste that is ending up in landfill or even worse our water ways. According to the 2010 Clean Up Australia Rubbish Report, one in ten items found on clean up Australia day were related to plastic drinking bottles.

DID YOU KNOW

Spring water is extracted from underground aquifers upstream from where the water surfaces. This disrupts aquifer flow, affecting flora and fauna.

Most bottled water is packaged in PET (polyethylene terephthalate) plastic bottles which are derived from crude oil.

Numerous studies show that bottled water is no cleaner than tap water. The Australian Drinking Water Guidelines cover management of tap water supply and are far more stringent than the Code that regulates bottled water.

What are you paying for? Over 90% of the cost of a water bottle can be traced back to the bottle, lid and label

SAVE MONEY

One bottle of water can cost you around \$2.50 versus only a few cents per litre for filtered tap water.
